

## **Bearskin Application Instructions**

Beartooth Products™ introduces the newest and most innovative way to camouflage your skin and body. BearSkin is a temporary tattoo that is applied directly to your skin using water. Tattoos will not smear and can be worn for the day or for extended hunts and outings. Safely and easily convert your skin to nature's surrounding using the best camouflage patterns of today. No more messy face paint, hot masks, or cumbersome netting. Great for summer or warm weather hunts. Hypo-allergenic, FDA approved non toxic-inks that are safe to the skin and extremely realistic.

### **Get Barely Noticed – Get BearSkin**

Directions:

1. Cut to desired shape and remove clear sheet
2. Apply face down to skin and wet back with cloth
3. Remove backing and begin total concealment

### ***Warnings:***

Do not apply to sensitive skin, near eyes or over existing ink tattoos. Please apply small amount and test how product is applied and removed before going on day or extended hunt.
