

Advantage Timber HD

Advantage

Timber HD® offers lifelike color reproduction, unmatched definition, exceptional contrast, and improved three dimensional effects. The pattern also offers many leaf colors, ensuring versatility across a wide range of habitats. It has quickly become a favorite of deer and turkey hunters from coast to coast; of course, duck hunters working flooded timber and elk hunters plying dark timber have added the pattern to their arsenal. The pattern has proven effective in fall, winter and spring. Whether you hunt from a tree stand or ground blind, Advantage Timber HD® will help you escape watchful eyes.
