

## Larry Owen, Indianapolis IN - Turkey Hunt

Click image to enlarge

"This story goes back to a few months ago when I bought the 3-Piece Camo Kit for my black synthetic Benelli Nova shotgun. Some of my huntin' buddies were giving me a hard time about being too cheap to buy a "real" turkey gun. Well, this past Saturday turned out to be a big success thanks to the Beartooth camo as my nephew Aaron (his first turkey) and I doubled up on two fine Toms from 35 yards. The gobblers had 11 inch and 10-1/2 inch beards. We took the birds on my "whispered" count of 1...2...BOOM, shooting simultaneously and dropping the birds. I joked with him on the early morning walk to the woods that this would be our plan but I didn't really expect it to happen. Now that I've sent my buddies a few photos, I believe they are ready to get in on the Beartooth action. Thank you!"
