"I have tried a number of slings for my Remington 7mm, and can say easily that this product outlasts and out-carries anything else. The heavy-duty sharkskin neoprene really helps to absorb shock without bouncing, and it simply does not slip off the shoulder. The tri-glides make it a snap to adjust the length for a perfect trail-carry style. This is probably my favorite of the Beartooth line of products - and is a great addition the the 3-piece camo kit, and the Scope guard. I highly recommend it for those of you on long stalking hunts, or as a simple and safe way to get the firearm into a tree-stand."
